

CDW Canada Named Canada Partner of the Year by NVIDIA

TORONTO, ON – July 17, 2020—CDW Canada today announced that it has been selected by the [NVIDIA Partner Network \(NPN\)](#) as the 2019 Canada Partner of the Year.

The NPN selected CDW Canada for driving sales and broad adoption of NVIDIA data centre GPUs and NVIDIA DGX systems across many key industries such as finance, healthcare, higher education and manufacturing. An NVIDIA Elite Partner, in NVIDIA DGX systems, data centre GPUs, and vGPUs, CDW Canada is an IT solutions provider that serves leading Canadian companies with personalized IT advice and services designed to help them grow.

“We’re extremely honoured to receive this award from NVIDIA. Building next-generation data centre environments for multiple sectors requires unique levels of collaboration, industry knowledge, strong relationships and dedication to customers. We’re pleased to be recognized for our efforts and contributions in bringing tomorrow’s advanced solutions to our customers today,” said J.D. Hupp, Vice President & General Manager, CDW Canada.

“NVIDIA collaborates with CDW Canada every day to deliver strategic AI and HPC solutions for customers’ modern data centre environments,” said Craig Weinstein, Vice President of the Americas Partner Organization at NVIDIA. “Together, CDW Canada, NVIDIA and our OEM partners provide customers with computing solutions that leverage the power of GPUs.”

The NVIDIA Partner Network honors its top North American partners that have shown growth in their GPU business through the expansion, leadership, and investments they have made throughout the year.
