

MICROSOFT 365 CISO SECURITY WORKSHOP

Security

ESTABLISH TIGHTER SECURITY FOR YOUR MICROSOFT ENVIRONMENT

The Microsoft 365 CISO security workshop focuses on learning your organization's unique needs and develops a strategic plan based on approaches recommended by Microsoft experts.

The workshop will cover both product and solution best practices configuration recommendations around the security features of Microsoft 365. This will provide a functional roadmap to ensure security and compliance is built into the Office 365, Windows 10 and EMS solution. This will benefit both highly regulated organizations and those who have concerns about increasing their information security posture.

FEATURES

Some of the products and tools covered in the workshop include:

- Advanced security management
- Advanced threat protection (ATP)
- Multi-factor authentication
- Azure information protection
- Conditional access
- Privileged identity management
- Information security
- Email security

BENEFITS

- Deep dive into Microsoft 365 and features that could improve security of Office 365, Windows 10 and EMS
- Gain better understanding of Windows 10, Office 365 and EMS security features
- Evaluate current environment and security requirements
- Implement threat check tools to gain insight into potential risks
- Develop a roadmap on planning for the security and compliance of Office 365, Windows 10 and EMS
