

SECURITY DEVICE MANAGEMENT

Security

Part of our Management tier, our Security Device Management service provides a cost-effective solution for the day-to-day management of your security devices. With our 24x7x365 service, you will have peace of mind that highly skilled security professionals are monitoring the health and performance of your devices around the clock, all for a predictable monthly cost.

FEATURES

- Security device fault and health monitoring
- Moves, adds, changes, deletes
- Device patching and upgrades
- Monthly reports of device status, health and incident activity
- Proactive notification of vendor device vulnerabilities
- 24x7x365 service from highly skilled and experienced staff in our Advanced Security Operations Centre, a 3,000 square foot secured facility

BENEFITS

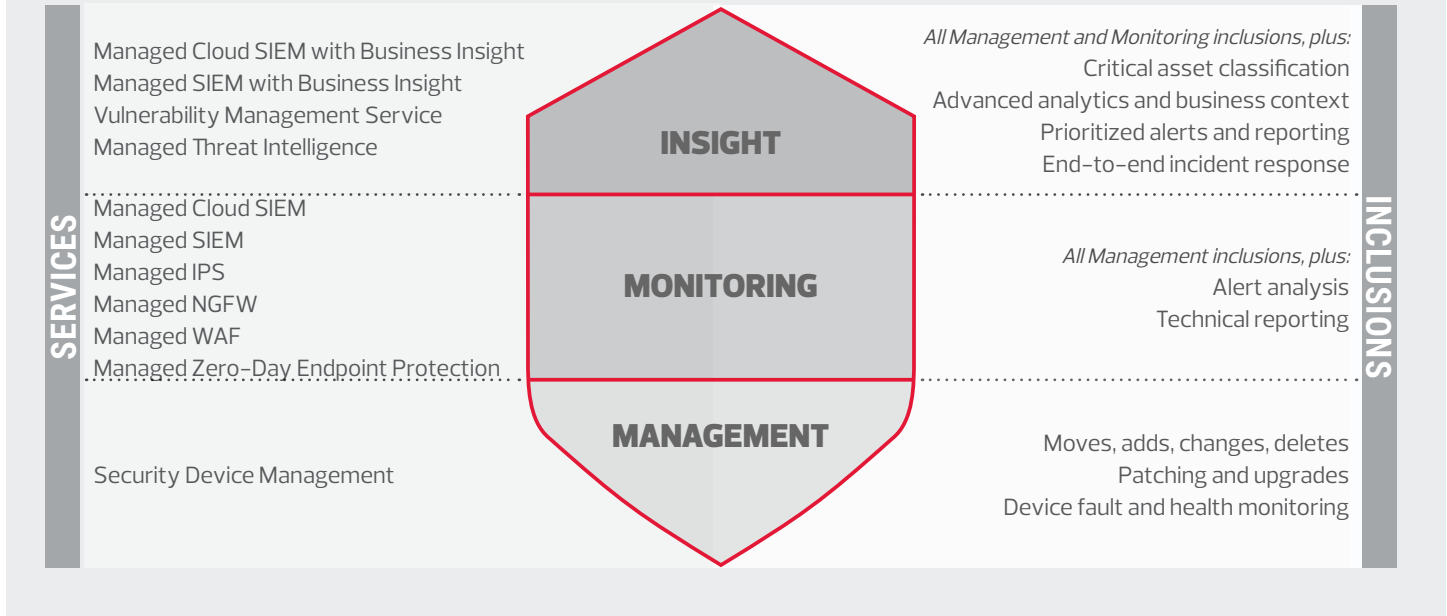

- Leveraging our skilled and specialized staff allows you to reduce the impact of costly security staff recruitment and training
- Predictable monthly costs allow you to reduce or eradicate upfront capital costs for technology, and budget effectively
- Our solution is designed to scale for growth with your business, if required
- Not having to worry about the management and monitoring of your environment allows you to refocus your staff on core business activities

DEVICES SUPPORTED

- Next-generation firewalls
- Traditional firewalls
- Unified threat management (UTM) devices
- Intrusion prevention systems
- Security information and event management (SIEM) platforms
- Web security gateways
- Email security gateways
- Web application firewalls
- Anti-malware appliances
- Two-factor authentication solutions

CDW MANAGED SECURITY SERVICES PORTFOLIO

Our portfolio of services is split into three tiers: Management, for straightforward device management and maintenance; Monitoring, for security alert monitoring and notification; and Insight, our top tier of services, for clients who require more advanced security analytics, response and incident management with business insight. Managed NGFW and Managed IPS are both part of our Monitoring tier.

WHY CDW?

- Our industry-leading expertise and partnerships with leading technology providers can help address vulnerabilities in your network, now and in the future
- We have hundreds of years of IT security operations experience on our team
- We have major enterprise reference clients
- Our dedicated security operations facility is the most advanced in Canada
- We back up our security expertise with an array of industry and partner certifications
- We are SOC 1, SOC 2, Protected B and PCI certified in our data centre controls
