

Creativity Meets Collaboration.

Adobe Creative Cloud and Microsoft Teams.

Help everyone in your organization communicate, collaborate, and deliver projects faster with Adobe Creative Cloud and Microsoft Teams.

Great experiences happen when business teams and creative teams work together on design and content. With the Adobe Creative Cloud app for Microsoft Teams, you can accelerate feedback, iteration, and decision-making across all your creative projects.

Discover the power of using Creative Cloud for teams and Microsoft Teams together.

Assets at your fingertips.

With just a couple of clicks, you can access your Creative Cloud files and libraries from within your Microsoft Teams workspace. The Creative Cloud app for Microsoft Teams supports all Creative Cloud file types, including PSD, AI, INDD, and all new XD files from new Adobe XD CC. When you share files stored in Creative Cloud via Microsoft Teams, your team members get a direct link within the chat experience.

Faster review cycles.

Retrieve your creative work in the Microsoft Teams workspace for easy sharing and quick feedback. You can even pin your assets to a tab so they're easy for team members to find. Plus, when people make comments in XD prototypes, you'll get notifications directly within Microsoft Teams so you're always up to date.

Powerful prototype sharing.

Not only does the Creative Cloud app for Microsoft Teams support Adobe XD files, it also simplifies collaboration on XD prototypes and design specs. When you paste an XD link into a Microsoft Teams chat session, team members see a summary description and thumbnail preview. Plus, you can track comments made on shared prototypes and design specs in Microsoft Teams via app notifications.

No additional purchase or setup required.

Everyone with a Creative Cloud for teams membership can take advantage of the integrations at no extra cost. Microsoft Teams is available for free for organizations of up to 300 users. Simply download Microsoft Teams, and then add the free Creative Cloud app from the Store in Microsoft Teams.
