

Readiness Review

Support and scale your Apple deployment.

Let Apple Professional Services show you how Apple products can drive productivity

Whether you've just started integrating Apple products or have already deployed them, our senior-level engineers will ensure that you're ready to support the growing number of employees using Apple devices. We work closely with your technology teams to create a comprehensive assessment of the environment and best practices for managing your devices.

Get the most from your Apple ecosystem — fast

Timing is critical, so we'll provide immediate feedback onsite and deliver a detailed report with recommendations within two business weeks. The process includes:

- Preparation and planning calls to get started
- Up to four days of hands-on discovery sessions with your technology teams and other stakeholders about managing Mac and iOS devices
- An in-depth closing session covering key findings and actionable recommendations
- A formal readiness report customized for you based on our onsite discovery combined with our internal research, processes, tools, and methodologies
- Up to four hours of remote, post-engagement mentoring
- A progress check six weeks after the closing session
