

GoGuardian Platform: Now Available on Windows®

NOW AVAILABLE

Now you can expand your Google for Education environment onto Windows. Whether students are working in a classroom or a computer lab, using Chromebooks or Windows devices, you can help them stay safe and focused with GoGuardian.

GoGuardian Admin™ on WINDOWS

GoGuardian Admin is a multi-layered content filtering solution providing full flexibility for your school's policies while drastically reducing time spent on configuration and maintenance. We unlock the potential of the internet for students while helping to block harmful and distracting content.

Experience the power of continuous, content-based filtering at the browser level on Microsoft Windows devices.

Customers with any number of Windows devices can now help protect their students using GoGuardian Admin.

GoGuardian Teacher™ on WINDOWS

With GoGuardian Teacher providing a view into your students' online activity and giving you control over their devices, you can feel comfortable embracing technology in the classroom.

Teach confidently on your Windows devices, knowing that your students are staying focused and on task.

With Windows, teachers also have control beyond the Chrome browser, including seeing and managing students' desktops and applications.
