

5 reasons why you should choose HPE for your Microsoft Azure Stack solution

HPE ProLiant for Microsoft Azure Stack is the only way to go

HPE ProLiant for Microsoft® Azure® Stack simplifies the development, management, and security of your hybrid cloud. Co-engineered by HPE and Microsoft—based on a 30-year partnership—the joint solution enables you to run Azure-consistent services in your own data center.

Here are five reasons why you should choose HPE ProLiant for Microsoft Azure Stack:

4 to 12

nodes available in single increments
(rather than in blocks of four)

28%

increased memory bandwidth

1

The most configurable solution available

HPE ProLiant for Microsoft Azure Stack offers **greater choice** with **more configuration options** than other solutions. As a fully customizable solution, you get to choose:

- The **processor** type that's right for the workload
- Your choice of **memory**
- Scalable **storage** capacity
- **Support for third-party networking switches, power supplies, and rack options**

With flexible configuration options, be assured that HPE ProLiant for Microsoft Azure Stack will fit seamlessly into your existing environment.

2

Highest capacity with highest performance at full speed

HPE ProLiant for Microsoft Azure Stack is uniquely architected to achieve both **high capacity at 768 GB RAM**, and **high performance at full 2400 MHz memory speed, increasing memory bandwidth by up to 28%** compared to other, same capacity solutions. This enables you to run more workloads—even faster.

3 Pay-per-use pricing with HPE GreenLake Flex Capacity

Reduce costs by leveraging cloud-style economics by using a **consumption-based model**. HPE GreenLake Flex Capacity gives you the cloud you need with:

- **Rapid scalability**
- **Variable costs** aligned to metered usage
- **No upfront expense**
- Enterprise-grade **support**
- **One** monthly bill

Only HPE gives you true, consumption-based IT for Azure Stack.

4 Deploy with confidence with over 4000 trained experts

Leverage the collective expertise of over **4000 HPE experts trained on Azure and hybrid cloud** to answer any questions you have and give you the support you need. Take advantage of the experts to:

- **Help you develop** the best hybrid cloud strategy for your company
- **Deliver professional services** to meet your use case, design and implementation needs

4000

HPE experts trained on Azure and hybrid cloud

5 Try before you buy

Try Azure Stack and **accelerate time to value** by getting up to speed at one of the HPE-Microsoft Innovation Centers. Run jointly by HPE and Microsoft, hybrid cloud and Azure experts are on hand to help you:

- **Access the latest** Azure Stack software and HPE hardware
- Implement a **proof of concept**
- **Test** your use cases

HPE ProLiant for Microsoft Azure Stack delivers your hybrid cloud, your way—today. Take advantage of highly flexible configurations, reduce risk, and accelerate time to value with pay-per-use, public cloud economics.
