

Protect Business Operations and Sensitive Data Against Rising Cyber Threats

Cyber Risks are Rising

40 seconds

A cyberattack occurs every 40 seconds.¹

\$3.5 billion

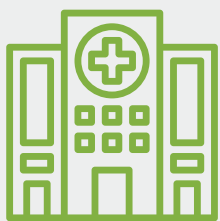

Cost of reported cybercrimes in 2019²

70%

of breaches are perpetrated by external actors³

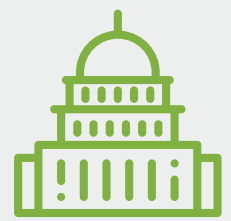

DDoS Attacks Surge

81% increase in DDoS attacks in 2020⁴

Buy a DDoS attack for **\$25** per hour⁵

Security Spending is Increasing

Top 3 Drivers of Security Spending⁶

1. Regulatory compliance
2. Reducing incidents and breaches
3. Keeping up with the evolving threat landscape

More Investments to Minimize Risk and Disruption

\$151 billion

spent globally on cybersecurity by 2023⁷

Capture New Service Opportunities

5G

- Enhanced mobile broadband
- Critical communications
- Connectivity for billions of IoT sensors

Managed Security Services

- Managed firewalls
- Secure SD-WAN
- Hybrid multicloud security

\$26 billion

Market for managed security services by 2024⁸

Build a Threat-Aware Network with Juniper

Add security capabilities to your existing Juniper Networks® MX Series 5G Universal Routing Platform and get a greater return on your investment.

With Juniper, enterprises and service providers can maximize the performance and scale of their defense systems. Machine learning automatically detects and mitigates threats in real time to minimize business disruption and risk.
