

CDW SERVICES:

MICROSOFT AZURE APP MODERNIZATION WORKSHOP

REACH MORE CUSTOMERS AND REDUCE COSTS WITH APP MODERNIZATION

Modern applications and mobile devices reach more customers and cut costs. Application Modernization can transform your business, allowing it to take greater advantage of cloud services. Taking your applications to the cloud will allow your organization to leverage the scalability, reliability and performance of Azure.

CDW's Microsoft Azure App Modernization Workshop will guide your organization on identifying applications that are ideal candidates for modernization and deployment to Azure App Services. Learn how to leverage Azure App Services to modernize your infrastructure with best practices. This engagement will provide:

- Azure App Services Overview
- Environment Assessment
- Set up Azure App Services Proof of Concept
- Identify applications to deploy on Azure
- Deploy SQL or MySQL Database services
- Integrate your application development process
- Provide roadmap for App Modernization

WHAT IS COVERED?

Some of the products and tools covered for Azure include:

- Azure App Services
- Infrastructure as a Service
- Platform as a Service
- SQL Database Services
- Serverless, Functions, Service Fabric, Logic Apps, Mobile Apps, Event Hubs

THE BENEFITS

- Integrate Azure into development process
- Evaluate Azure App Services for a production deployment
- Learn best practices on deployment, management and integration
- Accelerate adoption of Azure services by modernizing legacy applications
- Develop a roadmap for an enterprisewide Azure App Services deployment

WHY CDW?

CDW is uniquely qualified to design IT solutions that help remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings, including Microsoft Azure. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
