MICROSOFT WINDOWS 10 ASSESSMENT

MAKE THE TRANSITION TO WINDOWS 10 SEAMLESSLY

Windows 10 has many new features to help customers be more secure, mobile and productive. There are also potential risks that need to be evaluated to ensure a smooth transition and minimal impact to any line-of-business applications or processes. CDW has proven methods to help you prepare to move to Windows 10 with minimal risk in the most efficient way possible. The assessment will help you get started with Windows 10 by evaluating your hardware and software to identify any issues before upgrading. You will receive a detailed report on your readiness and compatibility, and recommended next steps to remediate any issues. The Windows 10 Assessment includes:

- Windows 10 Briefing and Design Session
- Hardware and Software Assessment
- Application Compatibility Assessment, Rationalization and Remediation
- Identify website compatibility with Internet Explorer 11 and Edge
- Detailed reporting of supported applications and hardware
- Recommendations to fix incompatible applications
- Next steps to deploy Windows 10
