

# CDW SERVICES:

## MICROSOFT WINDOWS 10 DEPLOYMENT

### MAXIMIZE YOUR WINDOWS 10 INVESTMENT WITH DEPLOYMENT BY THE PROS

Windows 10 has many of new features to help organizations be more secure, mobile and productive. The new management and security features enable these, but require new skills and knowledge to maximize the value. A Windows 10 engagement will help you evaluate the readiness of your environment, and deploy Windows 10 with minimal business impact. The engagement will help you get started with Windows 10 by evaluating your hardware and software to identify any issues before upgrading. You will receive a detailed report on your readiness and compatibility, and recommended next steps to remediate any issues. The Windows 10 Deployment will provide workshop sessions with deep dives on some of the latest tools and techniques to deploy and manage Windows 10. A Windows 10 project can contain the following phases, based on your needs:

- Windows 10 Briefing and Design Session
- Hardware and Software Assessment
- Application Compatibility Assessment, rationalization and remediation
- Use case analysis and personalization service
- Application delivery
- Image engineering
- Production deployment
- Production implementation, support and project management

### WHAT CAN CDW DO FOR ME?

Some of the products and tools covered for Windows 10 include:

- Windows 10 – Professional and Enterprise
- Edge Browser
- BitLocker, AppLocker, BranchCache, Device Guard
- Mobility Workforce
- System Center Configuration Manager
- Microsoft Deployment Toolkit (MDT)
- Microsoft Business Store
- Windows as a Service

### THE BENEFITS

- Gain better understanding of Windows 10 Professional and Enterprise and their features.
- A Hardware and Software Assessment to determine compliance and identify potential application compatibility issues.
- Knowledge transfer on best practices to deploy and create an image, with optional deployment testing leveraging various tools such as MDT or SCCM (assuming you have those in place).
- Administer Windows 10 leveraging built-in manageability features.
- Accelerate and improve migration to Windows 10.
- Second-tier support and project management.

### WHY CDW?

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
