INCREASE YOUR ABILITY TO DETECT AND RESPOND TO THREATS
The Microsoft Azure Sentinel Workshop and Pilot engagement will help customers experience the native scalable cloud-based SIEM and SOAR solution within their own production environment. Additionally, you will get a bird’s-eye view across all data ingested and detect threats using Microsoft’s analytics and threat intelligence. You will be able to investigate threats with artificial intelligence and hunt for suspicious activities.

The workshop also will cover both product and solution best practices configuration recommendations. This will provide evidence-based insight to ensure security, governance, and compliance is uplifted into your multicloud solution. This will benefit organizations with an Azure Tenant or an Office 365 commercial subscription as well as Office 365 U.S. Government Community (GCC) clouds.

WHAT CAN CDW DO FOR ME?
Some of the products and components covered in the Microsoft Azure Sentinel Workshop and Pilot include:
- Business and Technical Security landscape and requirements evaluation
- Evaluate data sources to be connected
- Threat Hunting with Notebooks tying to MITRE ATT&CK ATPs
- Playbooks and Logic Apps for SOAR capabilities
- Workbooks and Analytics
- Security Adoption and Change Management (ACM) for your end users with Brainstorm™

THE BENEFITS
- Understand the features and benefits of Azure Sentinel
- Discover threats to your Microsoft 365 cloud and on–premises environments across email, identity and data
- Understand how to mitigate threats by showing how Microsoft 365 and Azure security products can help mitigate and protect against threats that are found.
- Create a defined deployment roadmap based on your environment and goals
- Develop joint plans and next steps for security and compliance of Office 365, Windows 10 and EMS
- Complimentary 45-day trial of Brainstorm to quickly enable users the ability to swiftly adopt advanced security features in Office 365 or Azure
- Quickly enable users the ability to adopt advanced security features in Office 365

WHY CDW?
CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We can help you navigate Microsoft’s robust array of solution offerings. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.
