In today’s fast-paced business world, collaboration is the foundation for success. To help ensure your success, industry leaders Samsung and Cisco have come together to transform collaboration by transforming the modern workplace. Introducing Webex on Display. Webex on Display combines leading Samsung signage technology with Cisco’s innovative Webex solution, for a seamless, integrated meeting experience. A best-in-class solution for any business environment, workstyle or workspace, Samsung SMART Signage paired with Cisco video conferencing changes the way work gets done.

Key highlights

- More productive and engaging collaboration in any business setting
- Saves valuable space through single-source solution integration
- Ability to pre-set then immediately activate desired meeting room settings
- Smoother video conferencing through crystal-clear audio and detailed picture quality
- Ability to share and source content from multiple connected devices
- Can customize solutions to meet the demands of small- and large-sized spaces
By combining its industry-best visual display technologies with Cisco’s market-leading video collaboration solutions, Samsung transforms the modern meeting space. With a comprehensive suite of features that can be tailored to individual business needs, Webex on Display enables more accessible meetings and more intelligent collaboration. And to avoid losing valuable time navigating unfamiliar meeting technology, the Samsung and Cisco solution guides businesspeople through simple and intuitive operation.

**Why Webex on Display?**

**Samsung SMART Signage**

**Cisco Webex Room Kit Series**

- Webex Room Kit Mini
- Webex Room Kit
- Webex Room Kit Plus
- Webex Room Kit Pro
Whether for a small meeting room or a large boardroom, Webex on Display promotes more dynamic and engaging interaction in an easy-to-use format. Videoconferences operate without delay, content appears clearer, and discussions become more informed and productive. Each solution stores and activates pre-configured settings, including optimal color, audio and video, without delay. Users enjoy an optimal 4K viewing experience, along with the ability to control multiple collaborative solutions through a single remote device. Whether your team is small or large, Samsung and Cisco provide a variety of solutions that can be customized for any meeting room.
Samsung and Cisco offer Webex on Display for smarter collaboration

As experts in technology and business solutions, Samsung offers feature-rich, professional-level displays, while Cisco offers powerful, flexible video conferencing technology. Features are robust and innovative, including Customer Electronics Control (CEC) for streamlined usage, crystal-clear UHD resolution, auto-configured settings for multiple users, and flexible options that allow customized video conferencing for any meeting room. Together, Samsung and Cisco provide businesses with optimal meeting room solutions that create highly efficient workspaces.

Prioritize meeting simplicity

Samsung SMART Signage and Cisco Webex Room Kits are compatible with each other seamlessly through the use of the Consumer Electronics Control (CEC) technology. This technology simplifies the operation of displays by automatically configuring settings.

Intelligent video conferencing

Lag time between video and audio is a common issue in video conferencing. The Samsung and Cisco solutions help create a smooth video conference experience by automatically minimizing lag in video playback, eliminating echo and solving lip syncing issues.

Optimal viewing experience for meetings

The Samsung and Cisco solutions deliver superior color settings that are auto configured for optimal resolution. They support 4K visuals for a high-quality viewing experience, and the underscan and overscan handling automatically adjusts the screen to ensure a perfect fit of your images.

Smart display operation

The Samsung and Cisco solutions facilitate smart operations through a mutual connection. Samsung display information is synced with the Cisco codec, allowing efficient display management. Additionally, Cisco cameras can recognize attendees entering the room and automatically wake the display.
Choose the solution that’s right for your meeting room

Every office space is different. Some use small huddle rooms, others require technology to support large boardrooms, and there’s every variation in between. Regardless of your office setup, Samsung and Cisco have product options perfectly suited for your business scenario.

Huddle spaces

Samsung QM49R + Cisco Webex Room Kit Mini provide everything users need to quickly connect and get to work.

How do open offices benefit from huddle spaces?

Many businesses today opt for open space floor plans and agile teams that combine local and remote workers. To help enable this workstyle, small, private meeting areas, or huddle spaces, allow teams to quickly gather for informal discussions, brainstorm or other spontaneous collaboration sessions.

Small meeting rooms

Samsung UHD signage up to 55” + Webex Room Kit includes refined UHD picture quality and a full Cisco web conference kit.

Large meeting rooms

Samsung UHD signage 65” or larger + Webex Room Kit Plus or Webex Room Kit Pro delivers unmatched picture quality and size, with powerful technology for specialized conferencing scenarios.

Samsung UHD signage solutions

Samsung’s UHD signage delivers sharp, clear and detailed UHD picture quality, for optimal video conferencing. Powerful built-in software delivers graphic performance that accommodates large and small business environments, and the 3-layer protection by Samsung Knox helps secure important data. Additionally, the PC-less solution allows users to access and edit content through a remote laptop or PC, eliminating the need to bring devices to meeting rooms.

Key features

**UHD picture quality**
Showcases content with ultra-realistic detail and clarity, at four times the resolution of 1920 x 1080 HD.

**Data security**
Samsung Knox provides rigid 3-layer protection, restricting file and data access to an exclusive user base.

**Powerful performance**
Business-critical capabilities range from secure in-platform application development to remote management.

**Samsung workspace**
Allows users to remotely access a PC or files from a cloud server by simply connecting a keyboard and mouse. NO PC required.
# Cisco Webex Room Kit solutions

The Cisco Webex Room Kit Series offers video conferencing technology that combines with flat-panel displays to bring more intelligence and usability to meeting rooms, either on-premises or in the cloud. The Cisco Webex Room Kit Series provides devices for meeting rooms from small to large. Cisco Webex enables smarter meetings with intelligent videos, dual screen options, easy screen integration, and additional capabilities enabled through the cloud.

## Key features

### Smart meetings
Powerful, integrated cameras deliver intelligent viewing capabilities, such as automatic framing and speaker tracking.

### Smart presentations
Features that include dual screens, dual content sources, wireless sharing, and 4K content make for more effective presentations.

### Smart integrations
Enable tracking meeting attendees for resource allocation, automatic screen integration, in-room controls such as light and curtain adjustments, and more.

### Registration flexibility
Webex Room Kits are built for both cloud and on-premises deployment, optimizing your investment.
Samsung ProCare technology protection

Samsung’s commercial display solutions help retailers communicate with their customers in the most efficient and optimal way. In an industry where every second counts, downtime is critical and a 3-5 day average repair window is not an option. Samsung ProCare technology protection provides Fast Track with White Glove services, depending on display size and type. Reduce downtime and be back up and running quickly.

Fast Track with White Glove Service Options for Indoor Displays

Fast Track with White Glove
Personalized service at your disposal. Includes Next Business Day* exchange, removal and installation.

Fast Track
Quick turnaround times for efficiency. Includes Next Business Day* exchange on your display.

*For Next Business Day delivery and/or installation, calls must be received before 3 PM ET. Shipments are made during regular business hours Monday through Friday, excluding holidays.
