## WHY DFS?\*

**Technology leasing from Dell Financial Services is Powered for Business – YOUR business!**

Dell Financial Services™ (DFS) has been the lender of choice for 15M customers globally financing \$6B dollars annually; so you can count on us for:

- Technology leasing expertise – we intimately understand how financing works with your technology solution
- Customized financing choices – specialty structures, deferrals, non-Dell gear, credit availability
- Ease of use – since we are part of Dell, acquiring new IT solutions is one-stop shopping with DFS
- Business class servicing - access to servicing that has been designed to address the unique needs of a business customer

We recognize that financing is part of the solution and we're passionate about working with you to build a leasing plan that works as hard as you do.

## WHY a Finance Lease?\*

**With a Finance Lease, your business can take advantage of a financing product that helps power your business for years to come.**

If your business wants to take a long-term ownership position on a particular technology solution, a finance lease is a viable option that you should strongly consider.

A finance lease offers a number of important benefits that work to streamline your strategic planning and budget:

- Simple financing product structure · Fixed periodic payments
- Easy to budget repayment commitment
- Equipment ownership at end-of-lease
- Customizable repayment terms
- Ability to finance soft costs (software, licenses, etc.)

Leasing plays an important role for many businesses looking to build out their technology solutions. Acquiring these solutions with a finance lease may have a place in your strategy as well.

## WHY a Fair Market Value Lease?\*

**Fair Market Value Leasing is designed to provide a cost effective solution to any technology need.**

A dedicated technology rotation strategy is critical to maintaining a competitive edge. A Fair Market Value (FMV) lease can help you power up your capabilities as you build out your virtualization, cloud, data center or mobility refresh initiatives.

Unlocking this powerful tool allows us to build on our partnership with you as we help manage your equipment throughout it's entire lifecycle. Here's how:

- Reduce your Total Cost of Ownership (TCO)
- Lowest periodic payment possible
- With a Master Lease Agreement (MLA) your orders are rolled up into a single recurring statement
- Return or purchase the equipment at end-of-lease
- Convenient, confidential & environmentally safe equipment disposal
- Acquire new technology more quickly
