

Maintenance Contracts

Does your organization have a variety of equipment from different manufacturers?

Are your warranties from different providers for different lengths of time, each with a different end date?

Let CDW simplify your warranties. Maintenance Contracts offer one, easily manageable service contract that can cover all of your IT equipment, regardless of the manufacturer, with just one expiration date and a single point of contact for repairs.

A CDW Maintenance Contract offers many benefits:

- Easy-to-manage equipment coverage
- Single point of contact for repair service
- Multiple response times available on the same contract
- Flexibility to add or remove equipment as needed
- Includes parts and labor
- Consolidates multiple contracts
- Annual or multi-year contract

With a Maintenance Contract from CDW, your Technology Services Specialist can consolidate all of your various agreements under one contract and prorate the coverage as you add or delete equipment.

Managing service will be much easier once all of your equipment is under one contract, which will look something like this:
