If you work in education, there’s a premium, fully-featured laptop just for you

High performance Chromebooks let you access work from anywhere and be more productive in the classroom

If you’re over error messages, crashing, restarts, and the wheel of death...and looking for a laptop you can count on, You Chromebook

Keep pupils on task
Use locked mode in Quizzes in Google Forms for distraction-free quiz taking (available only on managed Chromebooks)

Efficient grading
Eliminate the paper worksheet, and grade assignments directly from the Classroom Android app using the stylus (included with many premium devices)

Casting made easy
You (or your students) can share screens with the class wirelessly with the click of a button using Cast for Education (and don’t worry: you have full control over who casts what)

Productivity
Get more done with G Suite for Education and the tools you love
All your files, emails, photos, music, and videos are automatically available wherever you are
An 8 second boot-up time makes sure you don’t waste time waiting for your computer to turn on

Flexibility
Work anytime and anywhere, online and off
Access to Android apps, the largest mobile app ecosystem
Easy cloud printing on the nearest printer

Dependability
Automatic updates, so your computer is never slowed down by outdated OS versions
Virus protection, built-in multilayer security, and long-lasting battery life
Enough ports for all your needs

Google for Education
edu.google.com/k-12-solutions/chromebooks
Chromebooks are intuitive, no matter if you’re 5 years old or 50. I have veteran teachers who come in and say, “Yes, I’ll become Google certified,” because Google makes it accessible.

Stacy Royster
Director of Technology at Opelika City Schools

Thoughtful design at an attractive price
Select from a wide range of features, shapes, and sizes
